limited. As compared with the last reported 25X1 period, the present report indicates that a total of 3,956 carloads from the USSR entered East Germany, i.e. an increase of the daily average from 306 carloads to 396 carloads or of 30 percent. Incoming vegetalbe shipments decreased to a rate of 7 carloads during the reported period, probably due to seasonal reasons. A total of 157 boxcars with undetermined load were recorded during the reported period i.e. a daily average of 16 carloads. These cars are assumed to have carried grain. No incoming loaded refrigerator cars were reported.

SECRET/COLTROL - U.S. (	OFFICIALS ONLY	
<i>6</i>		

Goal shipments from the USSR arrived at the low rate of 78 carloads, i.e. a daily average of 8 carloads. Ore and iron shipments continued to arrive at an increased rate. A total of 1,167 carloads of ore and 928 carloads of iron were recorded, which represents a daily average of 117 carloads and 93 carloads respectively. Incoming sugar shipments were reported for the 25X1 first time and totaled 39 carloads.

2. Comment. A total of 4,125 cars were dispatched to the East, which indicates a decrease of the daily average from 447 cars to 393 cars. The volume of uranium ore shipments remained constant with a total of 204 carloads or a daily average of 19 carloads. A total of 78 loaded tank cars carrying gasoline from East German hydrogenation plants to the USSR were recorded. A total of 34 new express train coaches with Soviet-gauge wheel sets to be used on these cars were dispatched from East German railroad car factories to the USSR.
